

Skills

Javascript (ES6+) | TypeScript | Node.js | Express.js | MongoDB | MySQL | PostgreSQL | MySQL | RESTful APIs | Git | Github | JWT | OAuth | Jest | Docker | ThunderClient | Prisma | Mongoose | Sequelize | React | Redux | RTK | Tailwind Css | Clean Architecture | English - **All professional proficiency**

Experiences

Pandora Tech | Backend/Full-Stack Developer Yangon | 2024.2.1 - 2024.5.25

- Developed and maintained a **web-based examination platform** used by over **1000+** students.
- Built an **admin dashboard** for managing users, monitoring exam activities, and overseeing certification processes.
- Designed and implemented APIs responsible for **generating exam questions**, managing student responses, and handling the certification process.
- Integrated **real-time data** collection and analysis for tracking exam results and student performance.
- Collaborated closely with frontend and backend teams to ensure smooth UI/UX on the **student exam pages** and reliable backend operations.
- Ensured **scalability** and optimized performance to support a growing number of students and data.

Tee Htwin | Frontend/Full-Stack Developer Yangon | 2021.12.1 - 2024.2.1

- Contributed to the development of an **art marketplace platform** for selling and buying art in Myanmar as a part of a team of **10 developers**.
- Build and optimize **static pages**, reducing errors by **20%** and improving overall **app stability**.
- Implemented **Docker** for containerization and efficient deployment.
- Managed infrastructure using **AWS services**, ensuring scalability and reliability for the platform.
- Collaborated with team members to continuously improve performance and user experience for artists, buyers and sellers.

Education

Mawlamyine University | Bachelor's degree Mawlamyine, Mon State | 2015.1.1-2018.5.14
Bachelor of Chemistry | GPA - 4.5
